

## Covid-19 restarting face to face Scouting risk assessment

<b>Name of Section or Activity</b>	<b>District Renewal of promise camp</b>	<b>Date of risk assessment</b>	<b>Name of who undertook this risk assessment</b>	<b>COVID-19 readiness level transition</b>
		26 / 04 / 2022	000194753	Amber

<b>Hazard Identified? Risks from it</b>	<b>Who is at risk?</b>	<b>How are the risks already controlled? What extra controls are needed?</b>	<b>What has changed that needs to be thought about and controlled?</b>
Tentage, guy lines all trip hazards	Everyone	no running around the tents rules enforced, remove any obstructions to obvious thoroughfares , mark any obstacles so they are clearly visible	
Arrivals and departures	Everyone	the arrivals and departures each have a time slot to keep traffic flowing. Leaders should be next to the car park zone at the right time to meet and reunite the parents with their children whilst not allowing the young people to run around during this slot	
fires	everyone	Each group will have its own age appropriate rules around the fires, tents must not be pitched near ANY fires. All Ash to be disposed of properly, any sticks that are alight must remain in the fire. Water buckets should be kept near the fire while it is alight.	
After dark	everyone	Torches should be used when moving around the site	
Knives , Axes and Saws	Everyone	No knives are to be used or carried around the site unless it is for a specific purpose. Axes and saws if used are to be kept in their designated areas and only used by appropriately trained Scouts and Scouters under supervision.	
Extreme Weather	Everyone	If the DC decides the weather is too extreme the camp will called of and the intouch system used by each group to send the young people home. during the waiting time the building will be used for everyones safety	
specialist medical conditions	people with special medical conditions	GSLs are to apply for a wrist band which each person with special medical needs will need to wear during the camp in case any incident occurs and special medical needs are required.	
Hired in equipment	All users	The companies hiring in the equipment have their own risk assessments and these can be seen online at the following website addresses www.rockitinflatables.co.uk www.kbleventhire.co.uk www.demonwheelers.co.uk	
Activities at Belchamps	All users	All site risk assessments for activities at Belchamps can be found online at www.belchamps.org.uk.	

## Covid-19 restarting face to face Scouting risk assessment

Hazard Identified? Risks from it	Who is at risk?	How are the risks already controlled? What extra controls are needed?	What has changed that needs to be thought about and controlled?
Vehicles on site	everyone	During site activity times No Vehicles will be allowed within the camping area of the field . All leaders vehicles will be left in the car park where possible or if no room then the pick up and drop off area. Leaving the way clear for any leaders needing to leave site for any emergencies. Once the activities have closed then only vehicles essential for camp take down are allowed on the camping field .	
Group specific activities	anyone within the groups	All groups will have differing ways of managing tasks and if any specific tasks/activities require group risk assessment which fall outside of this general risk assessment then the individual groups must create their own risk assessments and submit them to their GSL prior to camp as usual.	
Risk of slips and trips and iffy weather	everyone	Suitable footwear and clothing should be worn taking care and everyone should be made aware that Belchamps has uneven ground	
Toilets slips and trips , and hand washing	Everyone	Everyone using the toilets has a duty to not mess up the toilets and make the floors unnecessarily wet. If this is found please report to your section leaders or GSL so the floors can be mopped up to minimise risk. Make sure hand washing is done properly with Soap to prevent infections	
lost children and adults and unauthorized visitors	everyone	all leaders/ children are to wear their group/District scarves whilst on site at all times ( excluding bed). Any person not in a scarf may be asked by a leader who they are and where is their scarf and reported up the line if a good enough reason is not given	
A person begins to display symptoms of C-19 during the camp.	All	Current guidelines of Covid-19 symptoms are as listed on the NHS England website and some are listed but not limited to the below - you may feel hot to touch on your chest or back (you do not need to measure your temperature), a new, continuous cough - this means coughing a lot for more than an hour, or 3 or more coughing episodes in 24 hours (if you usually have a cough, it may be worse than usual), a loss or change to your sense of smell or taste - this means you have noticed you cannot smell or taste anything, or things smell or taste different to normal. Most people with Covid-19 have at least one of these symptoms. Anyone displaying these symptoms must not attend the camp. Should someone begin to show symptoms of C-19 during the camp they will be immediately shown to an area away from the main group. This area, although a distance way, will still be in sight of adult leaders. If this is a young person, their parents or guardian will be immediately contacted and asked to collect them. All contact details must be up to date. All adult leaders showing signs of C-19 symptoms will be asked to leave the camp. The leaders will wear face masks while in the presence of someone who is displaying symptoms. Prior to the camp, all participants will be reminded on how to deal with general coughs and sneezes and adequate hand washing and sanitising by their section leaders.	

## Covid-19 restarting face to face Scouting risk assessment

Hazard Identified? Risks from it	Who is at risk?	How are the risks already controlled? What extra controls are needed?	What has changed that needs to be thought about and controlled?
equipment sharing	everyone	Where equipment is to be shared by multiple people and slow down potential transmission of infection it is advised to have hand sanitizer on standby	
Review: This risk assessment is for a section to move from one COVID Readiness alert level to the next, an additional risk assessment should be produced for each move proposed.
